Common expenses for investment properties

Expense	Tax treatment	Comments
Monthly/ Annual expenses (For Example): <ul style="list-style-type: none"> interest on loans drawn to acquire or improve property rates, land tax, insurance agents commission 	Deductible when incurred	General deductions- necessarily incurred in gaining assessable income that are deductible while property is income producing
Lease document expenses	Deductible when incurred	A deduction is allowed for expenditure incurred for the preparation, registration and stamping of a lease of property.
Borrowing expenses: <ul style="list-style-type: none"> stamp duty on loan mortgage insurance loan application fee other borrowing costs 	Deductible over 5 years	The deduction is claimed over 5 years from the first day the money was borrowed (or the period of the loan, if the loan period is less than 5 years)
Expenses of discharging a mortgage	Deductible	Expenditure incurred to discharge a mortgage that you gave as security for the repayment of money is deductible to the extent that the borrowed money was used for the purpose of gaining assessable income
Stamp duty on property	Capital cost - not deductible, included in the assets cost base	The cost base of an asset includes the incidental costs incurred in acquiring the property.
Building costs	Capital Cost - not deductible, Capital Works Depreciation can be claimed	At a rate of 2.5% p.a. on building cost of the property can be claimed as capital works depreciation. Such claims reduce cost of property for capital gains purposes.
General repair	Deductible	A deduction is allowed for expenditure incurred in repairing the property to its state when you started renting it (any improvements would be regarded as a capital asset - Second hand goods do not qualify for depreciation from 1 July 17).
Travel to property to inspect/repair	Claimable till 30 th June 2017.	Specifically not deductible from 1 July 17
Additions / Extensions/ Improvements	Capital Cost - not deductible Capital works(depreciation) can be claimed	Capital expenditure incurred in altering or improving a building is not deductible. These capital costs can be isolated and written off at a rate of 2.5% per annum as with Building Costs above. Such claims reduce cost of property for capital gains purposes.
Initial repairs	Capital Cost -not deductible Capital works(depreciation) can be claimed	Expenditure incurred on initial repairs (rectifying defects that existed at the time the property was acquired) are regarded as capital improvements. To the extent they are not “plant” as set out below they may be written off at a rate of 2.5% per annum with Building Costs above. Such claims reduce cost of property for capital gains purposes.
Plant and Equipment, e.g.; carpet, furnishings, whitegoods, electrical equipment, hot water systems, stoves, air conditioning, common area lifts etc	Capital Cost - not deductible Capital allowance (depreciation) available	A deduction is available for depreciation of each asset based on expected life with typical depreciation rates of 15% to 30% per annum. A report from quantity surveyor is recommended. Such claims reduce cost of property for capital gains purposes. W.e.f. 1 July 17, this is only available for brand new investment properties. Capital works deductions will be available on purchase of old investment properties as well.
Capital works – Cost of construction.	Claimable at 2.5%
